ESG OBJECTIVES	GSM OBJECTIVES	ACTIVITY
Value Chain Sustainability (Lifecycle Impact)	Understand impact associated with our supply base and purchase from suppliers with lowest impact.	New SBD suppliers with projected over \$1 million annual spend are required to commit to setting Science Based Scope 1 and Scope 2 emission reduction targets.
Reduce Supply Chain Emissions	Work with leading transportation suppliers focused on emission reduction. Build manufacturing locations close to end market (Make where you sell) and source locally for those locations (Buy where we Make). Minimize high impact transport modes (Air).	<p>By 2025 Stanley Black & Decker commits to ensure two-thirds of suppliers by spends have set Science Based Scope 1 and Scope 2 targets using minimum well-below 2°C scenario.</p> <p>We expect our suppliers to meet the highest standards of quality, ethics and sustainability as outlined in our Stanley Black & Decker Supplier Handbook. We also encourage our suppliers to participate in our CDP Supply Chain Program.</p> <p>We are working to bring our supply chain along with us on the path to a Net Zero future, and to helping our suppliers achieve superior environmental performance. We have committed to ambitious targets for our supply chain in terms of emissions reductions.</p>
Respect and Encourage Diversity, Equity and Inclusion	Increase our spend with certified Diverse Suppliers to at least 10% and develop diverse suppliers by 2025.	<p>Corporate Supplier Diversity Program – Described on page 12 of the Supplier Handbook</p> <p>Expand our partnerships with minority and women-owned businesses</p> <p>In alignment with our supplier diversity policy, and with the guidance of our supplier diversity advisory council, we will include at least one diverse supplier in every Request for Proposal conducted in the U.S. To help drive expansion of diversity in our supply chain, we also partner with network organizations to ensure we are proactively and continuously connecting with diverse suppliers through outreach and mentorship.</p>
Employee Health and Safety	Only engage in business relationships with partners who ensure safe working conditions for their employees.	<p>Workplace Condition Requirements – Described on page 7 of the Supplier Handbook</p> <p>Suppliers must adhere to the code of conduct and Suppliers failing to provide satisfactory working conditions for their employees jeopardize their business relationship</p>
Human Rights	Only engage in business relationships with partners who respect human rights.	<p>Employment Condition Requirements – Described on page 6 of the Supplier Handbook</p> <p>Suppliers must adhere to the code of conduct and Suppliers failing to provide satisfactory working conditions for their employees jeopardize their business relationship</p> <p>Conduct supplier sustainability audits, working with our suppliers to review their social responsibility performance, analyzing opportunities for improvement and helping implement action plans on a continuous improvement cycle.</p>
